

# Web Designer

**Location:** Krakow, Małopolskie

**Category:** Business Development/Sales/Marketing

**Job ID:** PPS000423

Our People & Places Solutions business – reinforces our drive to improve the lives of people everywhere and epitomizes the “why” of what we do – the tremendous positive impact and value our solutions bring to our communities and society as a whole. From facilities delivering life-saving therapies and ensuring clean water to enabling the connection of people through all modes of transportation and providing access to technology – we’re integrating a multitude of these solution elements to build the smart environments of tomorrow.

Start your Jacobs career with a company that inspires and empowers you to deliver your best work so you can evolve, grow and succeed – today and into tomorrow.

## Your Impact:

For our Creative & Sales Solutions Team, we are looking for a Web Designer, who will be responsible for designing simple and effective, knowledge-based UI/UX web and mobile interfaces responding to the user's needs. As a Web Designer you will create a variety of web elements and detailed interactions that help communicate and guide users with ease.

## Key Responsibilities:

- Providing graphic/web design technical support using dedicated software
- Designing prototypes/wireframes of websites and apps
- Designing websites also for company intranet
- Cooperation with business development and project teams for moderately complex deliverables
- Coordinating graphics production and assisting in establishing budget

- Following approved graphic design methods using standard tools. He/she may suggest alternative methods and develop best practices
- Consistently using firm branding concepts
- Assisting less experienced team members in using technology
- Evaluating and resolving problems by reviewing multiple sources of information and drawing conclusions

### Here's What You'll Need:

#### Requirements:

- Master's or Bachelor's degree in graphic design or a related field
- Around 3 years of previous graphic and web design experience
- Familiarity with prototyping software (Adobe XD preferred)
- Developing skills and expertise in software/programming languages such as HTML, CSS and Javascript.
- Ability to create products that are user-friendly, effective and appealing.
- Experience in hard deadline environment, preferably in Engineering industry
- Deep knowledge of procedures and technical concepts
- Very good English skills

#### We offer:

- International working environment and unique company culture.
- Personal development opportunities.
- Friendly atmosphere in dynamic team.
- Full time employment contract with salary corresponding to qualification.
- Benefits package including medical care, insurance, sport activities and other.
- Independent role and flexible working hours.

At Jacobs, we're challenging today to reinvent tomorrow by solving the world's most critical problems for thriving cities, resilient environments, mission-critical outcomes, operational advancement, scientific discovery and cutting-edge manufacturing, turning abstract ideas into realities that transform the world for good. With \$13 billion in revenue and a talent force of more than 55,000, Jacobs provides a full spectrum of professional services including consulting, technical, scientific and project delivery for the government and private sector.
