

Poetry

kinetic installation, PCV, LEGO bricks, 2024

Regardless of the chosen position of the sign (“+” or “×”), we would always expect a four on the right-hand side of the equation. Everything is correct, as the number 4 in binary notation has the form *100*.

An accurate comment on this confusion caused by the sudden change in the numerical notation system is provided by Stanisław Jerzy Lec: “If our current logic proves false, all science will become poetry.”
